### **DETAILED ACTION**

Claims 15-16 and 23-24 are presented for examination.

Claims 1-14 and 17-22 have been cancelled.

### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The invention as claimed, claims 15 and 23 specifically include a limitation based on searching for a backup file having a file name exactly corresponding to a date and time of a client request, and if no exact match for the date and time corresponding to the client request is found, searching for the backup file having the file name with a date and time that are closest to the date and time corresponding to the client request but prior to the specified date and time. While systems and methods for retrieving a backup data file and creating a backup file name having a date and time are firmly documented by the cited prior art, the searching for a backup file having a file name exactly corresponding to the date and time of a client request, and if no exact match for the data and time corresponding to the client request is found, searching for the backup file having the file name with a date and time that are closest to the date and time corresponding to the client request but prior to the specified date and time limitations are novel and the invention is patentable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The title of the invention is changed to: **"System and Method for Retrieving a Backup File Having a File Name Exactly Corresponding to the Date and Time of a Client Request, if No Exact Match For the Date and Time Corresponding to the Client Request is Found, to Search for the Backup File Having the File Name with a Date and Time That are Closest to but Prior to the Specified Date and Time"**.
